Technology Center 2600

Dear Sir:

In response to the communication dated March 14, 2003, please amend the above-referenced application as follows:

IN THE CLAIMS:

Please replace current claim 26 with the following:

26. (New / Amended) A high capacity storage medium having video information stored thereon, the video information comprising:

a digital audio component;

a digital video component obtained by converting an input format with no added redundant frames or fields into an intermediate format having a frame rate of substantially 24 frames per second (fps);

wherein the digital audio component and the digital video component in the intermediate format are stored on the high capacity storage medium, and wherein the digital video component is viewed by converting the digital video component to output video information having an output format with a frame rate greater than or equal to the frame rate of the intermediate format of the digital video component.

Please replace current claim 33 with the following:

GIFFORD, KRASS, GROH, SPRINKLE, ANDERSON & CITKOWSKI, P.C.
